

GST[®] PREMIUM XL 32, 46

PRODUCT DESCRIPTION

GST[®] Premium XL products are formulated with premium base oil technology designed to minimize varnish deposits, resist oxidation, and meet the critical demands of today's gas and steam turbines.

CUSTOMER BENEFITS

GST Premium XL products deliver value through:

- Low Varnish Potential ensures varnish formation is minimized to extend oil life and protect equipment.
- Exceptional Oxidation and Thermal Stability for long service life at severe temperatures with minimal deposit formation.
- Outstanding Rust and Corrosion Protection
- **Minimum Foaming** helps prevent sump overflow or erratic governor operation.
- **Fast Air Release** minimizes possibility of pump cavitation in systems with high circulation rates and lesser residence time.
- Rapid Water Separation facilitates water removal.
- **Hydraulic Fluid Service** for systems requiring an ISO viscosity grade 32 or 46, and pressures not exceeding 1000 psi.
- Air Compressor Lubricant for systems requiring an ISO viscosity grade 32 or 46 R&O oil.

FEATURES

GST Premium XL products are formulated to resist and disrupt the formation of varnish while maintaining outstanding thermal and oxidative

stability. They are suitable for use in non-geared gas and steam turbines where elevated temperatures are experienced and require circulation systems with exceptional high temperature stability.

GST Premium XL combines highly refined group II base stocks and a unique ashless, zinc-free formulation minimizing the formation of deposits in reservoirs, high temperature bearings, and, other hot areas of the turbine that can lead to trips and failures.

Product(s) manufactured in the USA.

Always confirm that the product selected is consistent with the original equipment manufacturer's recommendation for the equipment operating conditions and customer's maintenance practices.

APPLICATIONS

GST[®] Premium XL products are formulated to meet the critical demands of non-geared gas, steam and hydroelectric turbine bearing lubrication and R&O service in marine reduction gears. They are additionally suitable for industrial severe service requiring an R&O, ISO viscosity grade 32 or 46 circulating oil with extended service capability.

GST Premium XL products are approved for:

• Siemens TLV 901304 and TLV 901305

GST Premium XL products meet the requirements of the following specifications:

- Alstom HTGD 90117 (for non-geared turbines)
- ANSI/AGMA 9005-E02 R&O
- ASTM D4304 Type 1
- British Standard 489:1999
- China National Std GB 11120-2011 L-TSA Type A/B
- China National Std GB 11120-2011 L-TGA
- DIN 51515/1 and 51515/2
- GEC Alstom NBA P5001A / P50003A
- General Electric GEK-32568j, GEK-28143b, GEK-27070 and GEK-46506e
- ISO 8068 L-TGA
- ISO 6743/5 (L-TSA, L-TGA, L-TGB)
- JIS K-2213 Type II
- **MAN** Diesel & Turbo TQLT2
- Solar Turbine ES 9-224 Class II

GST Premium XL 32 meets the requirements for the following specifications:

- Siemens Westinghouse PD-55125Z3
- Siemens Industrial Turbo Machinery 81 21 01

GST Premium XL 46 meets the requirements for the following specifications:

- Ansaldo Energia TGO2-0171-E0000/C
- GE Oil & Gas ITN52220.02
- GE Oil & Gas ITN 52220.03
- Siemens Industrial Turbo Machinery 81 21 02

Do not use in high pressure systems in the vicinity of flames, sparks and hot surfaces. Use only in well ventilated areas. Keep container closed.

Do not use in breathing air apparatus or medical equipment.

TYPICAL TEST DATA

ISO Grade	32	46
Product Number	253093	253094
SDS Number		
U.S.	47986	47986
Canada	47987	47987
Mexico	47988	47988
